

P-04-553 A full and independent investigation in to the health risks of wireless and mobile phone technologies in Wales including all schools

Petition wording:

We call on the National Assembly for Wales to urge the Welsh Government to conduct a full and independent investigation in to the effects of Electro Magnetic Fields created and emitted by wireless technologies, phone masts, mobile phones and other frequency emitters and domestic appliances on the health and general well being of humans and the natural world. There is now an enormous body of evidence demonstrating that the bombardment of modern traffic in electro magnetic fields can be harmful, causing DNA and cellular damage, having an impact on immune function and causing an increased risk of cancer and a loss of fertility – with children being especially susceptible to these threats.
