

National Assembly for Wales
Environment and Sustainability Committee
WFG TA 96
Well-being of Future Generations (Wales) Bill
Response from John Crocker

Dear Environment and Sustainability Committee,

I support the campaign for a strong Well-being of Future Generations Bill. I would like to see the Bill strengthened by:

Including a strong duty on public bodies to aim to achieve sustainable development in everything they do.

and on a local point in Aberystwyth not evicting a pensioner from her home so they can demolish it and build a Tesco, this is not a sustainable future when we already have several supermarkets in Aberystwyth.

Adding a clear definition of sustainable development

Adding in targets to reduce emissions of greenhouse gases

- Adding in targets to reduce emissions of greenhouse gases
- Including a strong duty on public bodies to aim to achieve sustainable development in everything they do
- Adding a clear definition of sustainable development
- Properly considering the impact Wales has on people and the environment overseas
- Boosting the powers of the Commissioner and making the role accountable to Assembly Members rather than Welsh Ministers

Please consider my views as you scrutinise the legislation over the coming weeks.

Yours sincerely
